The Cost of Measuring Marks Alone

1 in 2

graduates lack **future-ready skills.**
Marks ≠ Readiness.

12M

girls leave **STEM** every year in India.

78%

learn in regional languages while **95%** of digital learning is **English-only.**

One missing metric. Millions of futures.

Market Opportunity

Primary Market — Education Institutions (India)

- **250M+** students across schools & colleges
- **1.5M+** schools and **50,000+** colleges
- Institutions increasingly required to:
  - track outcomes beyond marks
  - demonstrate student readiness
  - report to boards, CSR, and government programs

Secondary Market — Employers & Corporates

- **63M+** MSMEs and **10,000+** large enterprises
- High cost of:
  - hiring inefficiency
  - background verification (BGV)
  - early attrition & bad hires

Why Now

- Rising demand for outcome-based education
- Shift from marks to skills & employability
- Digitization of admissions, hiring, and verification

- **Education Readiness** → schools, colleges, NGOs
- **Readiness Verification** → internships, jobs, admissions
- **Longitudinal Credentials** → lifetime learner profiles

Large base. Multiple buyers. Scalable readiness infrastructure.
