Promblem

100K into the

17

The promblem is that during night we can not detected ~~which~~ the pot holes the animals Crossing the roads during this the Pollution is less & even in the school ares also we should be carefol

Solution

So we can fit An AI to the helmet that shows our that go slow the pot holes are present & when animals are Crossing it sees & give caution that go slow animal waking & & it gives when we drive from School areas it shows sing of go slow because the children ~~can~~ ~~see~~ they run so the helmet is use full & it can record easly then when an accent occur we can see who's walt in this & the volgers & record instead of carigon camera

| Name is The Smart hemet
