Problem - like we can see many wastes dumped in a places, and it will be stinking. where it cause problem for everyone.

Solution - we have to place a senser that should be connected to municipality. Whenever there is wastes dumped there, they should get a signal. So that the ~~officer~~ ~~many~~ people from municipality can come and can see the wastes dump. And ~~who~~ & we should connect a CCTV nearby so that they can find the person who had dumped the waste and can punish him & by getting fine. So that it might have reduced.

Problem:- Like we can see many dumped in a places and it will be stinking where it cause problem for everyone

Solution:- we have to place a sensor be connected to municipality can come and can see the wastes dump and also we should connect a CCTV near by so that they punish him/her.
