Problem name : when we use some things like food or fruit we kept in the fridge after some days. It become waste and give bad smell and fridge also become bad. It that problem we can do the Automatic machine.

Solution :* when we insert the harm in the fridge in the time of the food or fruit become waste or giving bad smell. It will alert for you.

* Second solution :- In front of fridge we have like screen. It went tell when we kept food when It become waste there date. It give comfort to all House wife It makes has work also Decrease.

It also give the pre-information to working. women and. make him comfort,
