Selected

1) In the case of changing battery in watch we can adjustment to battery of watch and then charge it. left of it is in the small amount of solar plate. in belt and back side of watch and

2) In the case of tooth brush we have no space to fill tooth paste in the brush, we can make a small amount of 1 hole in the back side of brush when we press the brush the paste can come itself and we can brush easily.

problem :- tooth brush and tooth paste both are separate

Solⁿ :- Make a small compartment in the brush itself and fill the paste inside it, when you press the paste comes and you can use it to brush the teeth
