Problem

1.) If the tree climber climb a tree using a Long thread to his leg Some times He can fall from the Top of the Tree.] [Solution To Solve it use some Magnets to his hands that must stick to the trees So He can't fall from the Tree top.

2.) Problem For Emergency of a ~~Patient~~ Health Problem of a Person is in emergency if you send Ambulance it May stuck in the Traffic] So please Create a new service road, [or separate roads] Solution for Ambulance for better It is use full for the Health issue Person and for oxygen carring Cylinder carry some Box for Emergency Purpose

Thank You
