Problem :- time ~~cause~~ consuming during traffic signal with a 2-lane road. after cities have traffic signals for a 2-lane road for ~~de~~reducing accidents but not only it is time consuming but ~~and~~ also it prevent a few accidents and still there is a 1-2 accident everyday.

Cause :- ) time consuming
) less impact in accident [In my area]

Solution :- censors for traffic signals, after a length of cars are parked, a censor attacked with a camera can monitor the vechiles and give the output [stop, go, ready] and the camera will also supervise the rulebreakers
