look into ~~type~~ select (49)

→ When the teacher dust the or rub the black board, the dust will enter into air & eyes of the students or students will face skin problems

→ I will inovate a Duster that will collect all the dust under its own compartment

Problem → The dust will enter into the air or in the eyes of students & damage eyes & skin also

Solution → The Duster will collect all the dust under it. So it will be helpful.
